JASPER'S SOLAR SERMON.

Many white citizens having urgently re

Many white citizens having urgently requested him so to do, Rev. John Jasper will next Sunday morning deliver his fameus sermon on the sun's rotation.

This announcement was made by Brother Jasper last Sunday morning, much to the disaption timent of a number of white people who came up from Old Point Satarday night and attended his church hoping to hear the "Sun sermon." At the request of the visitors the sexton asked the minister to deliver this discourse, but he could not accommdoate them.

Great pressure is brought to bear on Jasper to have him deliver this sermon more frequently, but whenever he does so the white people crowd the congregation out of the church. As he himself expresses it, "there are shabby sheep in every fold" and for this reason he does not deliver it.

The old man is now seventy-eight years of age, and as he is firm in his determination it is more than probable that this will be the last delivery of the wonderful sermon. That the congregation should object to occasionally relinquishing their seats is strange, as a big addition to the finances of the 'church is the invariable result.

Factory-Hands Dropped a Rope Over the

Prison Wall to Him. The Henrico jail is located within ten or twelve feet of a tobacco-factory. The rear wall of this building is about fifteen inches lower than the wall enclosing the prison-yard. Recently there were some prisoners in the jail who had worked in the factory. Their friends in the latter got upon the rear wall named and dropped a rope into the prison-yard and released a prisoner.

Since then the Sheriff has felt it his duty to keep the prisoners confined and have not allowed them the liberty of the yard. He has asked the supervisors to build the jail-yard wall higher to prevent any further escapes, by this means, but the board has not yet compiled with his request. Until this is done the Sheriff intends to keep the prisoners strictly within the jail building.

The principals in this case were both employed at Kountree's trunk-factory, and it seems to be the custom of the boys there to initiate all new employes. This announcement created intense excitement, not only among the spectators in the courtroom, but among the prisoners, who, however, under the steady gaze of their lawyers, refrained from visibly showing whatever agitation they might-have felt. There being no interpreter in court one had to be sent for. Meantime a consultation between counsel was held.
